

"Crossing the line into Cybercrime"

Knowing what might lead you to online risk taking and cybercrime

You are incredibly digitally connected! That means there are lots of challenges for you that have not affected young people previously. The internet provides many opportunities and can be used in many productive and positive ways. But internet use also presents many risks, ranging from risk taking to harmful and criminal behaviours.

Take our quiz to find out more about these risks and how to avoid getting into trouble online. To find out how you did in each quiz, total your scores and check the score sheet.

Quiz 1: Your Tech & Security Skills

- Do you use an internet connected device every day?
- Do you think you have above average tech skills?
- Do you know how to programme or code?
- Do you think you are careful with your cybersecurity?
- Do you use antivirus software or malware protection?
- Do you think your online information is kept securely?
- Are you interested in a future career in the tech sector?
- Do you think you know what might be a cybercrime?
